Polipak was established in 1978 and is one of the leading manufacturers of Polyester(PET) and Polypropylene (PP) strapping in the world with an annual capacity of more than 10000 tons.

Polipak manufactures a wide range of straps in different colors and sizes at its ultra-modern manufacturing facility in Istanbul, Turkey. It is one of the few companies in the world operating a twin-screw PP/PET production line thereby ensuring complete control on size and quality.

All Polipak straps are made of prime raw materials processed under strict quality control using prime additives resulting in premium split & slip resistant straps with high tensile & joint strengths.

Polipak has now joined hands with SAS International, one of the leading lashing & packing solutions provider in GCC region to market & distribute its products in this region. A comprehensive range of Polipak products will be available ex-stock at SAS facility in Dubai and can be delivered to all areas and ports of UAE and surrounding regions in a very short time.
